Part III DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-41 drawn to a method of shaping a semisolid metal comprising crystal nuclei and to apparatus for producing semisolid metal, classified in Class 164, subclass 71.1.

Group II. Claims 42-57 drawn to a method of shaping a semisolid metal comprising a crystal gain refiner, classified in Class 164, subclass 76.1.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related to different processes for its practice. The inventions are distinct because in the method of Group I, the semisolid metal comprising crystal nuclei. However, in Group II, the semisolid metal comprising a crystal gain refiner.

3. Because these inventions are distinct for the reasons given above and have required a separate status in the art as

Serial Number: 09/490,983

Art Unit: 1722

shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Richard S. Barth (Reg. No. 28,180) on November 16, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner I.-H. Lin whose telephone number is (703) 308-3442. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0651.
